

SpeedUpMyPC

You've invested a lot of money to get the best hardware. Unfortunately, you might not be taking full advantage of all the speed and power that you paid for. Even the most experienced users have difficulty controlling all the resources and settings on a PC - all the while giving up valuable speed and system stability.

With SpeedUpMyPC, that's all fixed! Now, you can get a faster, cleaner, and safer PC within minutes - without being a Windows expert! SpeedUpMyPC automatically finds the best settings for your PC and carefully controls your system resources to give you the best performance. Easy to use, this award-winning utility has all the features you could ever need to clean up your system, monitor resources, and improve performance.

“This is essential for keeping you system running in top shape”
HardwareLab

Keep your PC on the fast track

SpeedUpMyPC makes it easier than ever before to optimize your settings, free up resources, and remove resource hogs. With simple explanations and real-time graphs for all vital system resources, SpeedUpMyPC identifies performance bottlenecks in minutes. With a heavy-duty arsenal of optimization tools, such as RAM recovery, CPU optimization, startup management, and automatic crash recovery, SpeedUpMyPC is THE must-have utility for both beginner and power users.

- **Free up RAM** - Improve the speed and stability of your system.
- **Optimize CPU usage** - Assign more CPU resources to critical applications.
- **Prevent crashes** - Avoid 90% of all crashes and system failures by automatically terminating misbehaving programs.
- **Startup Manager** - Tired of waiting? Make your PC start faster by removing unwanted programs permanently.
- **Disk Performance Monitor** - Find disk performance problems and monitor your hard drive in real-time.

Securely cruise the Information highway with ease

Tired of slow loading web pages, annoying popups, and spyware? With SpeedUpMyPC, your computer cruises down easy street. Now, you can automatically find the best settings for your Internet connection and browser, and displaying web pages 50% faster. By removing annoying popups, SpeedUpMyPC also ensures that you don't waste system resources displaying web pages that you don't want. Keep your PC and personal privacy under lock and key - SpeedUpMyPC even includes an advanced security scanner that automatically prevents spyware and Trojans from taking over your PC.

- **Optimize Internet and browser settings** - Improve speed and Internet performance with a single click.
- **Real-time bandwidth graphs** - Monitor your Internet connection in real time.
- **Block popups** - Automatically remove annoying popups and save valuable bandwidth.
- **Security scanner** - Protect your PC and personal privacy by automatically removing Trojans, spyware, and other security threats.
